The AOSOS Consortium - Strong, Committed, Proven

The America's One-Stop Operating System is backed by the strength of the **AOSOS** Consortium, which is committed to meeting the ongoing needs of its members for effective and cost-efficient workforce development information systems. The Consortium provides the vision and leadership that drive ongoing **AOSOS** development.

The **AOSOS** Consortium is a self-governing, self-sufficient body comprised of member state and local workforce professionals working through the America's OSOS Service Center. The Consortium funds the ongoing development, maintenance and support of **AOSOS**.

The Consortium commitment means you plug into a program of regular and timely product upgrades. The Consortium evaluates and interprets new federal mandates so you can be confident of your state's compliance with federal reporting guidance. The Consortium also prioritizes new features and functional enhancements to address evolving workforce development needs within its continuous improvement program.

The **AOSOS** Consortium provides new members access to a substantial body of knowledge, experience and technical expertise. The benefits of membership include the ability to draw upon collective knowledge to support each state's specific needs. All members benefit from a shared commitment to mutual success while empowering states with the freedom to customize their own implementation.

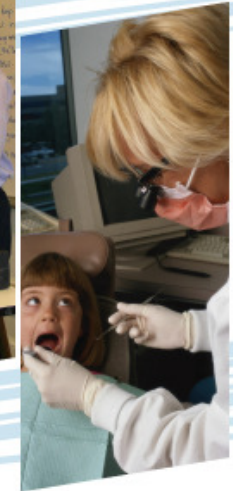

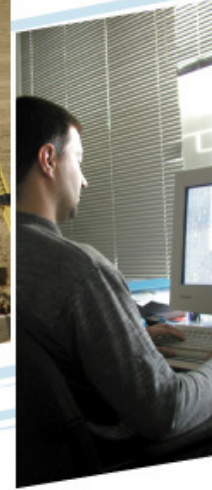

This long term commitment assures your state that **AOSOS** is stable, proven and ready to meet your One-Stop needs - right now - and will continue to meet your needs for years to come.

Seven states have successfully installed **AOSOS**.

Over 10,000 workforce professionals use **AOSOS** every day serving over 1.75 million job seekers.

Over 100 million services have been tracked through **AOSOS**.

Over 850 thousand jobs for 500 thousand employers are managed through **AOSOS**.

FLEXIBLE BY DESIGN COMPREHENSIVE BY CHOICE

America's
OSOS
One-Stop Operating System

"**AOSOS** is a great system! I love all the features that make case management so much more efficient. I can post activities to multiple customers, schedule appointments, and generate correspondence for One-Stop activities. Now I can focus my attention on my customers instead of paperwork!"

Kate Brennan
Rhode Island Dept. of Labor and Training

Flexible by Design Comprehensive by Choice

AOSOS provides a comprehensive, flexible solution for One-Stop operations without imposing rigid "one size fits all" limitations on program delivery. Examples include:

- States choose which programs participate in Common Measures

- Multi-Agency / Multi-Program Design - Support for any federal, state or local program

- Flexible Data Screens - Deploy new custom data screens literally overnight with zero IT costs

- Open and extensible design - Easy mechanism to interface with third-party, state and federal systems

- Powerful reporting with report cell drill-down capabilities

- Flexible security management and configuration options

AOSOS fully supports these federal programs:

- Labor Exchange (Wagner-Peyser)
- Workforce Investment Act
- Trade Adjustment Assistance
- VETS (DVOP & LVER)
- Migrant Seasonal Farm Worker

AOSOS also supports case management and service delivery for any federal, state and local partner program.

AOSOS is a comprehensive job matching, case management and reporting system for workforce and economic development professionals who work with employers and job seekers. Self-service capabilities allow customers to access the system remotely.

As a unique, web-based One-Stop solution, **AOSOS** is designed to help states and Workforce Investment Boards effectively and efficiently meet the requirements of the Workforce Investment Act, Common Measures and beyond.

AOSOS provides an integrated suite of workforce development systems: Job Matching / Case Management, Self-Service and Reporting.

Job Matching / Case Management

AOSOS manages the interaction between Workforce Professionals, Job Seekers, Employers and Service Providers. **AOSOS** is used by Employment Service and workforce investment area counselors, administrative staff and a broad variety of One-Stop partner agencies. Features include:

- Universal registration and case management
- Quick and comprehensive assessment
- Job matching, referrals and placements
- Employment plans and goal tracking
- WIA eligibility determination
- Service delivery and outcomes tracking
- Fund allocations, obligations and payments
- Individual Training Accounts
- Partner agency referrals
- Appointments and reminders
- Follow-up and monitoring
- Notification and correspondence
- Counselor notes
- Provider management and tracking
- Employer relations and service tracking
- Job order management and tracking

Self-Service

The Self-Service application empowers job seekers to create their own resume that employers can search and evaluate and to search for jobs either in the One-Stop resource room or remotely.

- Set-up and manage accounts
- Develop resumes and cover letters
- Powerful search engines for jobs
- Manage and configure automatic job scouts

Reporting

AOSOS produces all U.S. DOL / ETA-mandated reports for One-Stop career centers including the Federal validation and submission files for:

- ETA 9002A - E series
- VETS 200A - C series
- ETA 9048 - Worker Profiling
- Migrant Indicators of Compliance - MIC
- ETA 9090 - WIA Quarterly
- ETA 9091 - WIA Annual
- WIASRD
- Trade Act - TAPR

In addition **AOSOS** provides extensive local management reporting and an Unemployment Insurance wage interface.

"One feature unique to **AOSOS** is that full participant detail is tracked behind each report cell. This provides a rich storehouse of reporting data to facilitate mandated federal validation efforts and enables extensive ad hoc analysis of performance."

- Janet Pirozzi, State of Nevada Department of Employment, Training and Rehabilitation

AOSOS operates on a robust, efficient technical platform that easily scales from the smallest to the largest state.

Flexible by Design Comprehensive by Choice

The **AOSOS** solution is designed to adapt to a state's particular circumstances, enabling a comprehensive workforce solution while managing implementation and infrastructure costs.

HOSTING

AOSOS offers states a choice of hosting options, including on-site and off-site hosting. In either case, the site can be managed by the state or a hosting vendor.

When the state chooses to manage their **AOSOS** installation, optional infrastructure services are available to supplement state expertise, including:

- Database administration
- Site monitoring and management
- Operating system upgrades
- Security audits

SUPPORT

- Installation and upgrade support
- Ongoing production support
- Application administration

SERVICES

AOSOS offers customized services to meet your state's specific business and technical implementation requirements, including:

- Legacy Conversion Services
- Custom Development Services
- Consulting Services
- Training Services
- Documentation Services

AOSOS provides a full range of world-class hosting, support and service options to empower states to "right-size" the right One-Stop solution.
